

EXTERIOR DOOR, SIDELIGHT AND TRANSOM JAMBS

When Pinecrest® is to determine the rough opening size, we make allowances. When you give us the rough opening dimensions, we will make the jamb, door, sidelights, transom and astragal (if specified) to fit those dimensions.

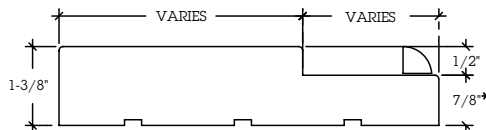

- * **1-1/8" JAMBS ARE REQUIRED FOR THE FOLLOWING:**
- 1-3/4" thick doors with jamb depths of 12" and over (square form doors)
 - 1-3/4" thick doors with jamb depths of 9" and over (arch form doors)
 - 2" and 2-1/4" thick doors regardless of door size and jamb depth.

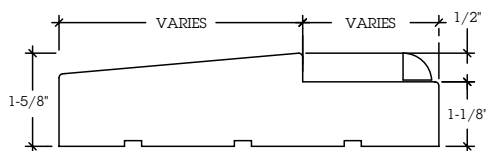

J1 - EXTERIOR DOOR JAMB (single rabbet with kerf)

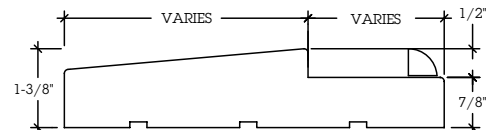

J2 - EXTERIOR DOOR JAMB (double rabbet with kerf)
Must be 5-3/4" or wider. For use with 1-1/8" or 1-3/8" thick screen or storm door. Specify thickness of screen or storm door.

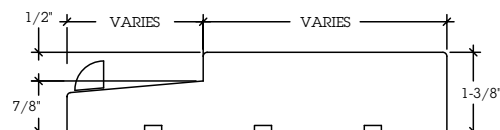

J5 - EXTERIOR SIDELIGHT & TRANSOM (jamb with stop)

J5 - WOOD SILL FOR SIDELIGHT (with in-swing door)

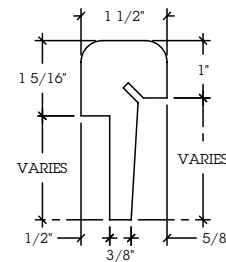

J5 - WOOD SILL FOR TRANSOM (with in-swing door)

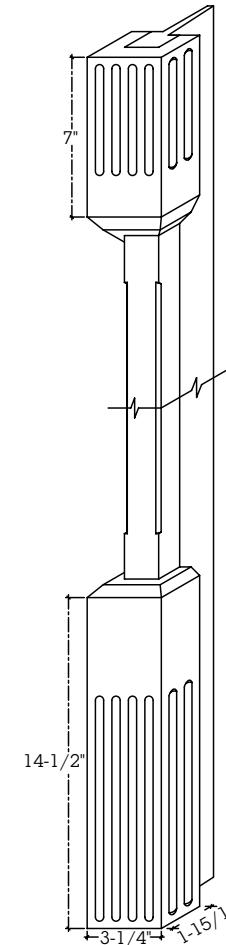

J5 - WOOD SILL FOR SIDELIGHT & TRANSOM (with out-swing door)
